

*You are cordially invited
to our*

GROVE OF 13

Tree Planting Ceremony

SEPTEMBER 17, 2026

CENTRAL PARK OF MORRIS COUNTY

10:00 AM - 11:30 AM

*Our planting will take place regardless of
weather conditions. Please note that the
recommended attire is field functional.*

The NJ Arborists Chapter of the ISA, together with Morris County Park Commission, invite you to join us for a commemorative tree planting in honor of the 250th Anniversary of the United States of America. Thirteen trees have been selected to plant, one representing each of the original 13 colonies.

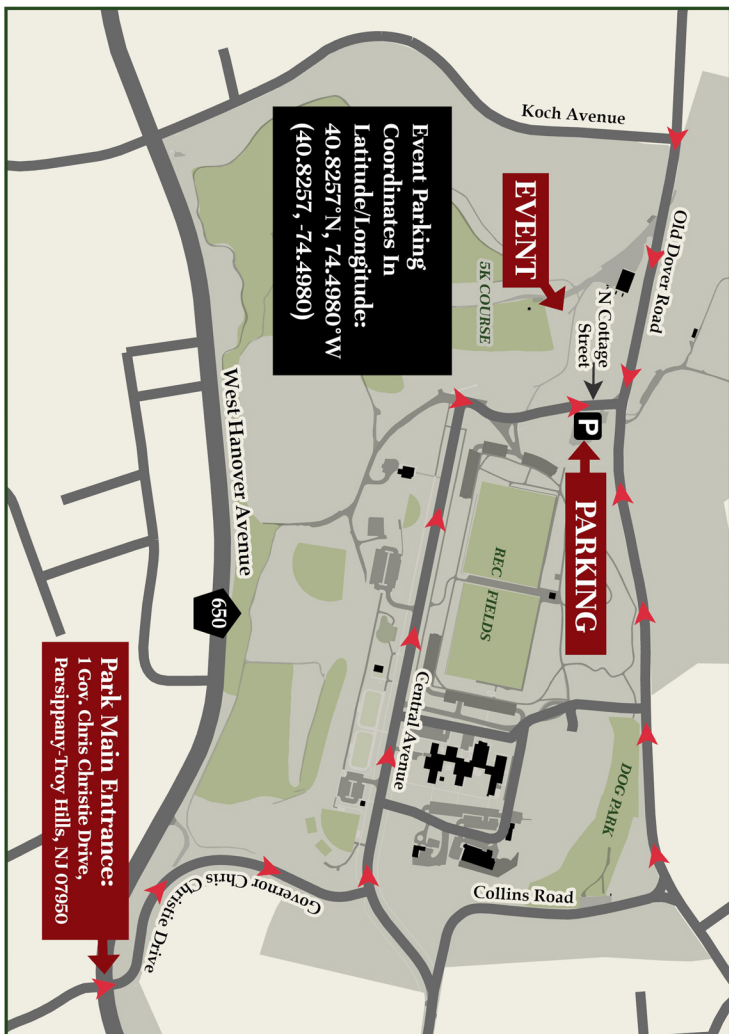

The grove of 13 trees planted in Central Park will honor the rich cultural heritage of the Garden State, while reminding us of all those leaders who have stewarded our state's natural resources for the past 250 years.

This ceremonial planting will include a few special reflections by leaders in our communities and will conclude with the planting of New Jersey's tree. We hope you join us for this special event.

Where Recreation, History & Nature Meet
