

NEW CONSTRUCTION RESIDENTIAL SALES 2020 SUMMARY UPDATE

Introduction

This summary provides new home sales data for 2020 and updates the [New Construction Residential Sales 2003-2010](#) report and subsequent update reports provided for the years 2011 to 2019.¹ This information was obtained from the New Jersey Department of Community Affairs, which compiles data on new home warranties and includes the price paid for newly constructed, for-sale housing units, by type of unit sold.² The data includes records of first time sales of newly constructed for-sale dwellings for which a new warranty has been issued.³ Data related to new rental construction is also addressed in this report.

New Units Sold – All Types

In 2020, there were 457 new residential units sold, an increase of 11.7% from 2019. Yearly sales of new residential units since 2003 are illustrated in Exhibit 1.

Exhibit 1 – New Construction Residential Sales – All Types 2003-2020

¹ Additional detail regarding data from 2011 through 2019 are included in the New Construction Residential Sales Summary Updates for 2011 through 2019, located at <https://planning.morriscountynj.gov>.

² NJDCA compiles data from home warranty companies and identifies units as single-family detached, single family attached (townhomes), duplexes, 3 or 4 unit dwellings and dwellings with 5 or more units. This study combines duplexes with single family attached while 3 or 4 unit dwellings are combined with multi-family. NJDCA data was also reviewed by the Morris County Office of Planning and Preservation to confirm its accuracy. County real property tax records determined housing size (square feet of livable area). Data on housing unit size was obtained directly from municipalities when required.

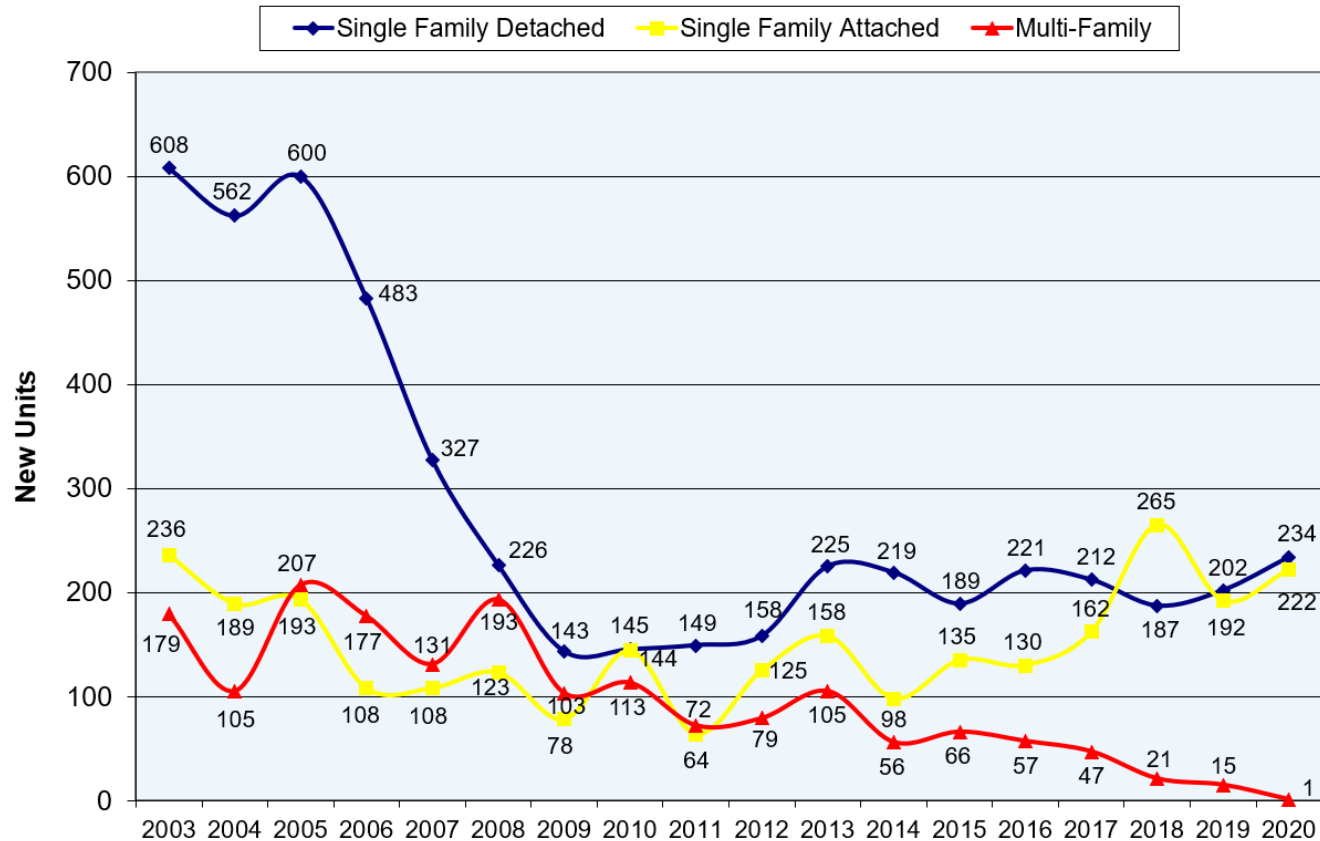

³ New dwellings built directly by homeowners are not included as no home warranty is required. New dwellings built as rentals are not included in the NJDCA data. Unless otherwise noted, all data references “for-sale” units.

New Units Sold Between 2019 and 2020 by Type

Between 2019 and 2020, sales of new single-family detached and single-family attached units increased by 15.8% and 15.6%, respectively. Conversely, sales of multi-family units decreased by 93.3% during the same period.

As a percentage of all new units sold, between 2019 and 2020 single-family detached units increased from 49.4% to 51.2%, single-family attached units increased from 46.9% to 48.6% and multi-family units decreased from 3.7% to 0.2%. As illustrated later in this report, while sales of new multi-family for sale units have fallen in recent years, the number of multi-family rental units approved by the Morris County Planning Board has risen significantly.

Exhibit 2 – Sales of New Residential Units by Type 2003-2020

Between 2003 to 2020, 9,547 newly constructed residential units were sold. Of these, 53.3% were single-family detached, 28.6% were single-family attached and 18.1% were multi-family.

Location of New Unit Sales 2020

- In the past, sales of new single-family detached units were typically distributed throughout Morris County. In recent years the distribution of such units has been more concentrated. In 2020 just three communities represented 50.0% of this type. For the ninth year in a row, Mount Olive led sales in the single-family detached category with 53 units sold, 45 of which were from the age-restricted Regency at Flanders development. Florham Park followed with 39 units and Parsippany-Troy Hills with 25 units.
- Just three municipalities represented 77.0% of the newly constructed single-family attached units sold in 2020. For the third year in a row, Morris Township led sales in the single-family attached category with 88 units sold, 53 of which were from the Collection at Morristown townhomes and 35 of which were from the Residences at Columbia Park townhomes. Florham Park followed with 51 units, 35 of which were from the age-restricted Del Webb Florham Park townhomes. Mount Olive followed with 32 units, all of which were from the Mountain Ridge townhomes.
- Only one new multi-family unit was sold in 2020, part of the Madison Place condominiums in Madison.

New Construction Median Prices 2019 to 2020

The median price for all housing types combined decreased from \$720,000 in 2019 to \$687,000 in 2020, a decrease of 4.6%.⁴ The median price for single-family detached and single-family attached units increased in 2020, while the median price for multi-family for sale units decreased.⁵

Exhibit 3 – New Construction Median Sales Prices - All Types 2003-2020

- The median sales price of new single-family detached homes increased from \$753,500 to \$815,000 (8.2%) between 2019 and 2020, with prices ranging from \$182,000 to \$10,000,000. The median sales price of lower priced single-family detached homes increased by 5.6% while the median price for higher priced single-family detached homes decreased by 0.8%.
- The median sales price for new single-family attached homes increased from \$567,500 to \$655,740 (15.5%). The median sales price of lower priced homes in this category increased by 11.2% while the median price for higher priced homes in this category decreased by 11.2%. Prices ranged from \$70,000 to \$1,282,000.
- Only one newly constructed multi-family unit was sold in 2020, selling at \$499,000, a decline of 36.8% from the \$789,000 median sales price of new multi-family homes in 2019.

⁴ The median is the value in the distribution of all records ranked from low to high, above and below which are an equal number of records, i.e., the middle value.

⁵ This analysis of unit size divides records into three price categories (Lower Priced, Medium Priced and Higher Priced) in which all records for a given type and year are divided into three equal categories and the median for each category is identified. The median price of the Medium Priced category equals the median price overall.

Tables 6 and 7 detail price variation by type and cost category.⁶

New Construction Median Sizes 2019 to 2020

The combined median size for all new housing types sold in 2020 was 2,540 square feet, up 3.2% from 2019.

- The median size for new single-family detached units sold in 2020 was 2,907 square feet, down 9.1% from 2019. Sizes ranged from 1,429 square feet to 14,457 square feet.
- The median size for new single-family attached units sold in 2020 was 2,435 square feet, up 1.0% from 2019. Sizes ranged from 920 square feet to 4,379 square feet.
- Only one newly constructed multi-family unit was sold in 2020. At 1,200 square feet, the unit size was 29.7% less than the median size of such units in 2019.

New Rental Residential Construction

The data presented thus far includes only for-sale units for which a warranty has been issued. However, new *rental* housing makes up an increasingly substantial portion of new housing construction in Morris County. To assess this activity, an analysis of development review records from the Morris County Planning Board was conducted.¹³

The Morris County Planning Board approved development applications that included 8,212 rental units in 74 projects between 2003 and 2019. Age restricted units represented 1,226 (14.9%) of these units.¹⁴ In 2020, twelve applications that included 1,190 rental units were approved, of which 428 (36.0%) were age restricted. By comparison, only 457 units of new *for-sale* housing were sold in 2020.

The largest rental developments approved in 2020 were the 295-unit Modera Montville under construction on Changebridge Road in Montville, followed by the 230-unit age restricted Delaney at The Green, under construction on Park Avenue in Florham Park (includes independent living, assisted living and memory care units). Since then, the pace of rental approvals has increased, with 11 projects including 1,735 rental units approved during the first nine months of 2021, of which 57 (3.3%) were age restricted. The largest rental developments approved in 2021 were the proposed 625-unit mixed-use Parq Parsippany on Parsippany Road in Parsippany, followed by the proposed 498-unit mixed-use District at 1515 on Route 10 in Parsippany.¹⁵ A common characteristic of the Modera Montville, Parq Parsippany and District at 1515 projects is that they involve the redevelopment of former office building sites and are subject to affordable housing set-asides.

Details concerning each individual project approved between 2003 and September of 2021 are provided in Appendix 3.¹⁶

Table 14 - Rental Projects Approved by the Morris County Planning Board

Age Restricted Rental <u>Projects</u> Approved by MCPB	11	3	0 ¹⁸

¹³ Projects not fronting on a county road or for which there was less than one acre of impervious cover are exempt from county review and are not included in this data; therefore, additional units may have been constructed based on local approvals. This analysis also does not include additional rental units that may have been approved and constructed through conversion of existing structures. Projects approved, but known to have been withdrawn or denied at the local level, are also not included. Housing tenure and age restriction status of projects is subject to change subsequent to county approval without notice to the county.

¹⁴ As shown by Table 1, a total of 9,547 newly constructed units were sold from 2003 to 2020.

¹⁵ The District at 1515 was originally approved by MCPB with 441 units in 2020, however it has been resubmitted and approved with 498 units in 2021, including 441 non-age restricted and 57 age restricted units.

¹⁶ As 2021 data for major rentals approved by the Morris County Planning Board became available, it has been included in this analysis. Final NJDCA warranty data concerning units sold in 2021 are not currently available.

¹⁷ Figures may include non-independent living nursing facility bedrooms.

¹⁸ The 498-unit District at 1515 includes 57 age restricted units. Since it is predominantly non-age restricted, this project was placed within the non-age restricted category.

Summary of Findings

- A total of 457 newly constructed housing units were sold in Morris County in 2020, an increase of 11.7% from 2019.
- Sales of new single-family detached homes increased by 15.8% in 2020 and represented 51.2% of new unit sales; they represented 53.3% new construction sales for the entire 2003-2020 study period.
- In 2020, 35.5% of the 234 new single-family detached home sales were teardowns and rebuilds. During the 2012 to 2020 study period, the total number of new construction sales generated by teardown/rebuilds was 36.1%, with the peak year of this phenomenon being 2017 (42.9%).¹⁹ The continuation of this activity likely reflects the diminishing supply of vacant developable land, high land costs and a strong economy. Since many of the newly constructed single-family detached homes identified in this report are replacements of teardowns, the net increase in the overall supply of such homes is actually less than the number of “new” home sales reported. Taking into account the number of new single-family detached homes sold in 2020 that replaced previously existing single-family detached homes, the **net** amount of such homes added to the housing supply was 151, despite 234 such units being sold in that year.
- Sales of new single-family attached homes increased by 15.6% in 2020, with 222 new units, representing 48.6% of all newly constructed home sales in 2020, the second highest proportion since the beginning of the study period in 2003. This reflects the increased importance of this type of housing in recent years. By comparison, this housing type represented only 28.6% during the overall 2003-2020 study period.
- Only one new multi-family unit was sold in 2020, representing a mere 0.2% of all new unit sales. For the fourth year in a row new multi-family sales have set a record low, both numerically and as a proportion of all new units sold during the 2003-2020 study period, and far below the 18.1% they have represented during the period overall. The fact that only one new multi-family unit was sold in 2020 is likely more a reflection of desired tenure and not type, since multi-family rental approvals have been substantial in recent years.
- The median sales price for all housing types combined declined by 4.6% in 2020 to \$687,000. Nevertheless, that was still the second highest median price during the 2003-2020 study period, behind only 2019 when it was \$720,000.
- The median sales price for new single-family detached homes increased by 8.2% in 2020, to \$815,000, a figure that has not been exceeded since 2009, when the median price for this type of housing was \$820,000.
- The median sales price for new single-family attached homes increased by 15.5% in 2020, to \$655,740, a record high for this type of housing during the 2003-2020 study period.
- Only one new multi-family unit was sold in 2020 for the price of \$499,000. With only one new unit of this type sold in 2020, no conclusions can be reached concerning any long-term pricing trends for this unit type based on the year 2020.²⁰
- The median size for new single-family detached and multi-family units sold in 2020 decreased by 9.1% and 29.7% respectively, while the median size for single-family attached units increased by 1.0%.²¹

¹⁹ Teardown/rebuild data first compiled in 2012. Based on a Morris County Office of Planning and Preservation review of aerial photography.

²⁰ The sole multi-family unit sold was part of the Madison Place condominiums in Madison.

²¹ Only one multi-family unit was sold in 2020.

- For the fourth successive year, sales of single-family detached units were uncharacteristically concentrated. The only multi-family unit sold in 2020 was located in Madison.
- The pace of Morris County Planning Board rental approvals remained strong in 2020 and intensified during the first nine months of 2021. Rental development activity is expected to remain strong due to affordable housing settlement agreements, high for-sale housing prices and continued market demand.
- A total of 1,055 housing units of all types were authorized by building permits in Morris County in 2020, contributing to the significant overall housing development likely to be seen in the near future.²² Building permit data may be further reviewed at <https://planning.morriscountynj.gov/data>

Exempt Projects Not Included.

Projects in RED denote age restricted development. Note that projects previously proposed or constructed as age restricted may be changed to non-age restricted; therefore, this report is subject to amendment from year to year to reflect such changes where known.

County approved projects known to have been subsequently withdrawn or denied by local government are not included. Listed developments and total units may differ from previous versions of this report to reflect post-approval amendments.

ⁱ Development also includes significant number of for-sale units, not included in this total.

*The District at 1515 includes 57 age restricted units.
