MEMORANDUM

To: CADB Voting Members

From: Katherine Coyle, Director

Date: September 7, 2023

Re: Right to Farm Act - Request for a SSAMP
Backer Farm
Township of Mendham

In 2021, the Morris County Agriculture Development Board (“Morris CADB”) received a request submitted by Nicole Voigt, Esq. on behalf of Backer Farm, LLC (“Applicant”) for a site-specific agricultural management practice (“SSAMP”) for the Backer Farm operation located in Mendham Township. The Applicant wished to establish a farm-based brewery.

On December 9, 2021, the Morris CADB determined that the Backer operation was a commercial farm and met the eligibility criteria of the RTF Act, and that the operation or practice is included on the list of permitted activities set forth in the Act.

The application was placed on hold during the summer of 2022 when the Applicant advised that they would consider revising portions of the application. Given that the commercial farm certification was made based on 2021 proofs, on April 21, 2023, the CADB requested that updated “commercial farm” certification documents be submitted with the amended application so that the CADB may re-certify the operation, if appropriate (B-1).

On July 20, 2023, the Applicant submitted updated “commercial farm” certification documents (A-1) and an amended application.

PROCEDURES

The Backer Farm application was filed pursuant to the Right to Farm Act (RTF Act), N.J.S.A. 4:1C-1 et seq. and the RTF Rules, N.J.A.C. 2:76-2.3.

Pursuant to N.J.A.C. 2:76-2.3(c) and (d), upon the receipt of a request for a SSAMP, the Morris CADB shall determine commercial farm eligibility, whether the operation meets the eligibility criteria pursuant to the RTF Act, and whether the operation or practice is included on the list of permitted activities

OFFICERS: Dale Davis III, *Chairman* • Harvey Ort, Jr., *Vice Chairman* • Aimee Ashley Myers, *Secretary*

MEMBERS: Frank Carrajat • Conor Evans • Thomas Galfo • Jay Thomson

STAFF: Katherine Coyle, *Director*

set forth in the RTF Act.

If the Morris CADB determines that the operation is a commercial farm and meets the eligibility criteria of the RTF Act, and that the operation or practice is included on the list of permitted activities set forth in the Act, the Morris CADB will develop a SSAMP for the operation.

If the Morris CADB determines that the operation is not a commercial farm, does not meet the eligibility criteria of the RTF Act, or that the operation or practice is not included on the list of permitted activities set forth in the Act, the CADB will dismiss the request.

STAFF REVIEW & COMMENTS

Commercial Farm Status:

1. Pursuant to N.J.S.A. 4:1C-3, "commercial farm" means (1) a farm management unit of no less than five acres producing agricultural or horticultural products worth \$2,500 or more annually, and satisfying the eligibility criteria for differential property taxation pursuant to the "Farmland Assessment Act of 1964," P.L.1964, c.48 (C.54:4-23.1 et seq.), or (2) a farm management unit less than five acres, producing agricultural or horticultural products worth \$50,000 or more annually and otherwise satisfying the eligibility criteria for differential property taxation pursuant to the "Farmland Assessment Act of 1964," P.L.1964, c.48 (C.54:4-23.1 et seq.).
2. Because the Backer farm management unit consists of more than 5 acres, to qualify for protections of the RTF Act, it must produce at least \$2,500 of agricultural/horticultural product per year.
3. According to A-1, Backer Farm produced more than \$2,500 worth of agricultural products in 2022 and 2023.
4. The Backer Farm management unit is comprised of 13 properties in Mendham Borough, Mendham Township and Chester Township.
5. All lots, with the exception of Block 101 Lot 32 in Mendham Borough, are Farmland Assessed. Block 101 Lot 32 is not Farmland Assessed because it is owned by the Borough of Mendham.

6. **Based on the proofs submitted to the Morris CADB, the Backer Farm operation is a “commercial farm” as defined in the RTF Act.**

Agricultural Activity:

1. According to Exhibit A-1, the Backer Farm produces meat, vegetables, fruits, berries, pumpkins and hay. It plans to also produce hops, barley, rye and related plant-based brewing ingredients for use in the proposed on-farm brewery.
2. The Applicant submitted an application for a SSAMP for the establishment of a farm-based brewery, which includes the construction of a farm market to be utilized as a facility to process grains and other ingredients into beer, and a sales area for the sale of beer. The Applicant also wishes to engage in farm-based and farm-product-based marketing events and activities.
3. Pursuant to N.J.S.A. 4:1C-9, the owner or operator of a commercial farm may:

“Produce agricultural and horticultural crops, trees and forest products, livestock, and poultry and other commodities as described in the Standard Industrial Classification for agriculture, forestry, fishing and trapping or, after the operative date of the regulations adopted pursuant to section 5 of P.L.2003, c.157 (C.4:1C-9.1), included under the corresponding classification under the North American Industry Classification System.”

“Process and package the agricultural output of the commercial farm.”

“Provide for the operation of a farm market, including the construction of building and parking areas in conformance with municipal standards.”

“Conduct agriculture-related educational and farm-based recreational activities provided that the activities are related to marketing the agricultural or horticultural output of the commercial farm.”
4. **The production, processing and packaging of agricultural crops, the construction of a farm market to be utilized for the processing and sales of the agricultural output of the farm, as well as conducting of farm-product-based marketing events and activities are included on the list of permitted activities set forth in N.J.S.A. 4:1C-9.**

Staff Recommendations:

1. Staff recommends that the Morris CADB should certify the Backer Farm operation as a “commercial farm” as defined in the RTF Act and determine that the activities proposed in the SSAMP Application are included on the list of permitted activities set forth in the Act.
2. Staff further recommends that the Morris CADB should proceed to develop a SSAMP for the operation.
3. Staff further recommends that the Morris CADB should submit an official request to Mendham

Township asking the Township to review the updated application and provide comments.

4. Staff further recommends that the updated application materials be posted on the CADB's website to allow access for the public to review the materials.
5. Lastly, staff recommends that the Morris CADB shall hold a public hearing in accordance with the hearing procedures set forth in N.J.A.C. 2:76-2.8.

**MORRIS COUNTY
AGRICULTURE DEVELOPMENT BOARD**

**APPLICATION FOR SITE-SPECIFIC AGRICULTURAL
MANAGEMENT PRACTICE RECOMMENDATION**

For BF Partners, LLC
(COMMERCIAL FARM OWNER/OPERATOR)

Backer Farm, LLC d/b/a Backer Farm
(NAME OF COMMERCIAL FARM)

- I. I hereby request the Morris County Agriculture Development Board ("board") to develop a site-specific agricultural management practice (AMP) for my agricultural operation pursuant to the Right to Farm Act, N.J.S.A. 4:1C-1 et seq. The site-specific AMP should address the following practices, activities or issues:

Please see existing application already on file with the Morris County Agriculture

Development Board.

This submission is for the purpose of re-certifying as a commercial farm.

2. I hereby certify the following:

I am (one of) the owner(s)/operator(s) of Backer Farm,
(NAME OF COMMERCIAL FARM)

Block(s) 109, Lot(s) 23 and 23 QFARM,

located at 32 Ironia Road, Mendham, New Jersey 07945,
(ADDRESS OF COMMERCIAL FARM)

in the Municipality of Mendham Township,

in the County of Morris.

3. I hereby certify that:

- a. Backer Farm is 5 acres or more, produces
(NAME OF COMMERCIAL FARM)
agricultural and/or horticultural products worth \$2,500 or more annually, and is
eligible for differential property taxation pursuant to the Farmland Assessment
Act of 1964.

*If your farm is farmland assessed, please attach a copy of the filed **Farmland Assessment Form** (including **Supplemental Farmland Assessment Form**) and **Municipal Notice of Property Assessment** for each tax lot.*

(in the alternative that the commercial farm is less than 5 acres)

- b. _____ is less than 5 acres, produces
(NAME OF COMMERCIAL FARM)
agricultural and/or horticultural products worth \$50,000 or more annually and
otherwise satisfies the eligibility criteria for differential property taxation pursuant
to the Farmland Assessment Act of 1964.

If your farm is less than 5 acres, please provide proof that: 1) the land is currently, and has been for at least the last two (2) successive years, actively devoted to agricultural or horticultural use, and that 2) the amount of gross sales of agricultural or horticultural products produced on the land have averaged at least \$500 per year during the 2-year period, or there is clear evidence of anticipated yearly gross sales and such payments amounting to at least \$500 within a reasonable period of time.

4. Please attach copies of receipts and tax forms (including Schedule F (Form 1040) – Profit or Loss from Farming) to provide proof of income.

5. The following agricultural/horticultural commodities are produced on my farm:

Backer Farm currently produces meat, vegetables, fruits, berries, pumpkins, and hay. The farm will
also produce hops, barley, rye, and related plant-based brewing ingredients for
use in the on-farm brewery.

6. Please attach proof that the farm:

a. is located in an area in which, as of December 31, 1997 or thereafter, agriculture has been a permitted use under the municipal zoning ordinance and is consistent with the municipal master plan, OR

b. was in operation as of July 2, 1998.

7. To the best of my knowledge and belief, my agricultural operation is in compliance with all relevant federal and state statutes, rules and regulations.

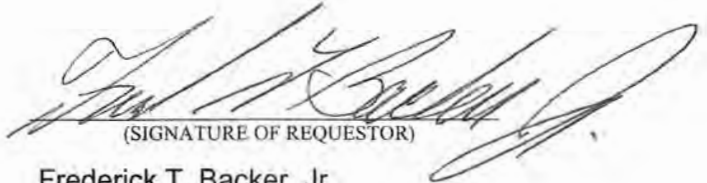

8. I understand that upon the board's written recommendation, the site-specific AMP will be forwarded to me, the State Agriculture Development Committee (SADC) and any other individuals or organizations deemed appropriate by the board within 30 days of the recommendation.

9. I understand that any person aggrieved by any decision of the board regarding the recommendation of this site-specific AMP, including myself, may appeal the decision to

the SADC in accordance with the provisions of the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1, within 45 days from receipt of the board's final determination.

- a. The decision of the SADC shall be considered a final administrative agency decision.
- b. If the board's decision is not appealed within 45 days, the board's decision is binding.

INSTRUCTIONS: You must fill out this form each year along with your FA-1 form. Since you are only required to fill out a single FA-1 form for each "contiguous" farm, the Assessor's Office requires a more detailed breakdown of the individual acreage amounts as they pertain to each separate record in the Tax Book.

The total acreage figures as reported in the far right-hand column of this sheet must match exactly the figures reported in Section II on the FA-1 form on the same corresponding lines.

GENERAL INSTRUCTIONS

APPLICATION: Only one Supplemental Farmland Assessment Gross Sales Form, FA-1 G.S., should be filed annually with the municipal assessor on or before August 1 of the year immediately preceding the tax year for which "farmland assessment" is requested. **You are reporting the current year's gross sales for qualification in the next tax year. Late or incomplete applications will be denied.** At the assessor's request, applicants must provide proofs of eligibility as to ownership, land area, agricultural or horticultural activity and gross sales. Lands in Farmland Preservation Programs must still meet the criteria and filing prerequisites of the Farmland Assessment Act to receive preferential reduced assessment.

Filing Extension: Assessors may grant an extension of time for filing an FA-1 application and FA-1 Gross Sales form, but no later than September 1 of the year immediately preceding the tax year for which "farmland assessment" is requested, if the assessor is satisfied that failure to file by August 1 was due to (1) the owner's illness and a physician's certificate stating that the owner was physically incapacitated and unable to file by August 1 and the FA-1 & FA-1 G.S. forms are filed with the assessor; or (2) the death of the owner or the owner's immediate family member and a certified copy of the death certificate and the FA-1 & FA-1 G.S. forms are filed with the assessor by the owner or by the executor/executrix of the owner's estate. "Immediate family member" means an owner's spouse, child, parent or sibling residing in the same household. (See N.J.S.A. 54:4-23.6d.)

QUALIFICATIONS: Farmland assessment means valuation, assessment and taxation under the Farmland Assessment Act. Land may be eligible for farmland assessment when:

- The land has been actively devoted to agricultural or horticultural use for at least 2 successive years immediately preceding the tax year for which "farmland assessment" is requested. (See N.J.S.A. 54:4-23.6.)
- The land area actively devoted to agricultural or horticultural use is not less than five acres, exclusive of the land upon which the farmhouse is located and such additional land actually used in connection with the farmhouse.
- Gross sales, fees or payments (See N.J.S.A. 54:4-23.5.)
 - Agricultural/Horticultural (Non Woodland):** Gross sales, fees or payments average at least \$1,000 annually on the first five acres and average at least \$5 for each additional acre of actively devoted land plus 50 cents per acre of appurtenant woodland or non-wooded wetlands. Required Income is calculated on the total number of acres under Farmland Assessment on the property, whether income producing or not. (See N.J.S.A. 54:4-23.5.)
 - Woodland Management Plan:** If the land is approved under a Woodland Management Plan the gross sales, fees, or payment average \$500 annually on the first five acres and average at least 50 cents for each additional acre of woodland or non-wooded wetlands.
 - NJ Forest Stewardship Plan:** Defined under N.J.A.C. 7:3-5, does not have a minimum gross sales requirement to show active devotion, **but** the land must be actively managed in compliance with the approved plan.
- Application by the owner is filed on or before August 1 of the year immediately preceding the tax year. (See N.J.S.A. 54-23.6.)
- Farmland management units less than 7 acres are required to submit a descriptive narrative of agricultural/horticultural uses, a sketch of their location, and number of acres devoted.

SECTION I: IDENTIFICATION

Owners' Name: List every individual, partnership or corporation having an ownership interest in the land.

Block(s) & Lot(s): List block(s) and lot(s) comprising a farm of contiguous land from your tax bill; official tax map; or page(s) and line(s) from the current year's tax list.

SECTION II: GROSS SALES

List products produced and the respective acreage under the appropriate headings. The acreages listed for the products in this section should match the values entered in Section 2 of the FA-1 application. If necessary, attach a separate sheet with the break down of additional products produced on the farm and the acreage devoted to those products.

Equine: Includes acres dedicated to the breeding, raising, boarding, training, or rehabilitating of horses and ponies, as well as structures like stables used for the equine activities.

Imputed Grazing Value Acres: Includes acres that are permanent pasture and/or cropland pastured, if the imputed grazing value is being claimed as income for livestock grazing on those acres.

Livestock: Includes permanent pasture and cropland pasture used for grazing livestock if not claiming the imputed grazing value for those acres, as well as land under stables, pens, coops, or other structures used to house livestock.

Woodland Products: Includes any tree and forest products produced from woodland under an approved Woodland Management Plan or **NJ Forest Stewardship Plan** if income is generated. Account for all woodland acres subject to a Woodland Management Plan even when only a particular stand within the parcel is being harvested for income that year. This value should equal the number of acres entered on Line 4 of Section 2 of the FA-1 application.

Total Non-Income Acres: Includes lands under streams or ponds when those bodies of water are not being used for aquaculture production, irrigation ditches, land under solar panels or other renewable energy generation systems, appurtenant woodlands, non-wooded wetlands, and permanent pasture and cropland pastured when used as a break or buffer but not when being grazed by livestock or under a federal soil conservation program. It should also include land under farm buildings, such as sheds, barns, silos, etc., which are used for the storage of farm equipment and harvested products as well as woodlands managed under a **NJ Forest Stewardship Plan** from which no tree or forest products are being harvested for income that year.

Total Acres Under Farmland Assessment: Is the total acreage devoted to agricultural or horticultural use (income producing plus (non-income-producing) acres on the property and should correspond to the value on Line (8) in Section 2 of the FA-1 Application.

Final Income: Is the income produced by the property's actively devoted acres, including income attributable to agricultural/horticultural products produced thereon, payments received under Federal soil conservation programs, fees received for breeding, raising or grazing livestock, income imputed to grazing land as determined by the State Farmland Evaluation Committee, and fees received for boarding, rehabilitating or training livestock where the land under the boarding, rehabilitating or training facilities is within the same property as land otherwise qualified for Farmland Assessment. Rents paid to owners by tenants farmers **do not** constitute gross sales. Generated energy from any source is **not** an agricultural or horticultural product and any power or heat sold, biomass, solar, or wind energy generation is **not** income for valuation, assessment and taxation of land pursuant to the "Farmland Assessment Act of 1964".

SECTION III: SIGNATURE AND VERIFICATION OF OWNER(S)

For non-corporate multiple ownership, one owner is presumed to have authority to sign on behalf of the other co-owners. For a corporate owner the full name of the corporation and the signature and title of the corporate officer authorized to sign the application in its behalf must be provided.

OWNERSHIP: Must be single ownership: i.e., a unified title meaning common ownership by one distinct legal entity of one or more contiguous parcels.

Attn: Scott Holzhauer, Tax Assessor

Dear Mr. Holzhauer,

My name is Ben Haddock, and we are in the process of purchasing 210 Mountainside Road from Harold Rienau. This property is farm preserved and having grown up in New Zealand, I look forward to farming this beautiful piece of land with my family.

Our closing date on the property is June 17th, 2022 and because this is close to the farm assessment filing of August 1st, hence my submission of paperwork enclosed.

Understanding that the farm assessment filing is in the middle of the growing year and the same time as our transition to the property, Harold and I agreed to have Derick Backer hay the property this season. I have used the information provided by Harold and Derick to complete the assessment paperwork. Harold, Derick and myself are available to discuss over the phone as required.

Thanks for your consideration of this year's application and I look forward to working with you in the future.

Please do not hesitate to reach out to me for any further information.

Best Regards,

Benjamin Haddock

GENERAL INSTRUCTIONS

APPLICATION: Only one Supplemental Farmland Assessment Gross Sales Form, FA-1 G.S., should be filed annually with the municipal assessor on or before August 1 of the year immediately preceding the tax year for which "farmland assessment" is requested. **You are reporting the current year's gross sales for qualification in the next tax year. Late or incomplete applications will be denied.** At the assessor's request, applicants must provide proofs of eligibility as to ownership, land area, agricultural or horticultural activity and gross sales. Lands in Farmland Preservation Programs must still meet the criteria and filing prerequisites of the Farmland Assessment Act to receive preferential reduced assessment.

Filing Extension-Assessors may grant an extension of time for filing an FA-1 application and FA-1 Gross Sales form, but no later than September 1 of the year immediately preceding the tax year for which "farmland assessment" is requested, if the assessor is satisfied that failure to file by August 1 was due to (1) the owner's illness and a physician's certificate stating that the owner was physically incapacitated and unable to file by August 1 and the FA-1 & FA-1 G.S. forms are filed with the assessor; or (2) the death of the owner or the owner's immediate family member and a certified copy of the death certificate and the FA-1 & FA-1 G.S. forms are filed with the assessor by the owner or by the executor/executrix of the owner's estate. "Immediate family member" means an owner's spouse, child, parent or sibling residing in the same household. (See N.J.S.A. 54:4-23.6d.)

QUALIFICATIONS: *Farmland assessment* means valuation, assessment and taxation under the Farmland Assessment Act. Land may be eligible for *farmland assessment* when:

- a. The land has been actively devoted to agricultural or horticultural use for at least 2 successive years immediately preceding the tax year for which "farmland assessment" is requested. (See N.J.S.A. 54:4-23.6.)
- b. The land area actively devoted to agricultural or horticultural use is not less than five acres, exclusive of the land upon which the farmhouse is located and such additional land actually used in connection with the farmhouse.
- c. Gross sales, fees or payments (See N.J.S.A. 54:4-23.5.)
 1. **Agricultural/Horticultural (Non Woodland):** Gross sales, fees or payments average at least \$1,000 annually on the first five acres and average at least \$5 for each additional acre of actively devoted land plus 50 cents per acre of appurtenant woodland or non-wooded wetlands. Required Income is calculated on the total number of acres under Farmland Assessment on the property, whether income producing or not. (See N.J.S.A. 54:4-23.5.)
 2. **Woodland Management Plan:** If the land is approved under a Woodland Management Plan the gross sales, fees, or payment average \$500 annually on the first five acres and average at least 50 cents for each additional acre of woodland or non-wooded wetlands.
 3. **NJ Forest Stewardship Plan:** Defined under N.J.A.C. 7:3-5, does not have a minimum gross sales requirement to show active devotion, but the land must be actively managed in compliance with the approved plan.
- d. Application by the owner is filed on or before August 1 of the year immediately preceding the tax year. (See N.J.S.A. 54-23.6.)
- e. Farmland management units less than 7 acres are required to submit a descriptive narrative of agricultural/horticultural uses, a sketch of their location, and number of acres devoted.

SECTION I: IDENTIFICATION

Owners' Name- List every individual, partnership or corporation having an ownership interest in the land.

Block(s) & Lot(s)- List block(s) and lot(s) comprising a farm of contiguous land from your tax bill; official tax map; or page(s) and line(s) from the current year's tax list.

SECTION II: GROSS SALES

List products produced and the respective acreage under the appropriate headings. The acreages listed for the products in this section should match the values entered in Section 2 of the FA-1 application. If necessary, attach a separate sheet with the break down of additional products produced on the farm and the acreage devoted to those products.

Equine: Includes acres dedicated to the breeding, raising, boarding, training, or rehabilitating of horses and ponies, as well as structures like stables used for the equine activities.

Imputed Grazing Value Acres: Includes acres that are permanent pasture and/or cropland pastured, if the imputed grazing value is being claimed as income for livestock grazing on those acres.

Livestock: Includes permanent pasture and cropland pasture used for grazing livestock if not claiming the imputed grazing value for those acres, as well as land under stables, pens, coops, or other structures used to house livestock.

Woodland Products: Includes any tree and forest products produced from woodland under an approved Woodland Management Plan or *NJ Forest Stewardship Plan* if income is generated. Account for all woodland acres subject to a Woodland Management Plan even when only a particular stand within the parcel is being harvested for income that year. This value should equal the number of acres entered on Line 4 of Section 2 of the FA-1 application.

Total Non-Income Acres: Includes lands under streams or ponds when those bodies of water are not being used for aquaculture production, irrigation ditches, land under solar panels or other renewable energy generation systems, appurtenant woodlands, non-wooded wetlands, and permanent pasture and cropland pastured when used as a break or buffer but not when being grazed by livestock or under a federal soil conservation program. It should also include land under farm buildings, such as sheds, barns, silos, etc., which are used for the storage of farm equipment and harvested products as well as woodlands managed under a *NJ Forest Stewardship Plan* from which no tree or forest products are being harvested for income that year.

Total Acres Under Farmland Assessment: Is the total acreage devoted to agricultural or horticultural use (income producing plus (non-income-producing) acres on the property and should correspond to the value on Line (8) in Section 2 of the FA-1 Application.

Final Income: Is the income produced by the property's actively devoted acres, including income attributable to agricultural/horticultural products produced thereon, payments received under Federal soil conservation programs, fees received for breeding, raising or grazing livestock, income imputed to grazing land as determined by the State Farmland Evaluation Committee, and fees received for boarding, rehabilitating or training livestock where the land under the boarding, rehabilitating or training facilities is within the same property as land otherwise qualified for Farmland Assessment. Rents paid to owners by tenant farmers do not constitute gross sales. Generated energy from any source is not an agricultural or horticultural product and any power or heat sold from biomass, solar, or wind energy generation is not income for valuation, assessment and taxation of land pursuant to the "Farmland Assessment Act of 1964."

SECTION III: SIGNATURE AND VERIFICATION OF OWNER(S)

For non-corporate multiple ownership, one owner is presumed to have authority to sign on behalf of the other co-owners. For a corporate owner or co-owners, the full name of the corporation and the signature and title of the corporate officer authorized to sign the application in its behalf must be provided.

OWNERSHIP-Must be single ownership; i.e., a unified title meaning common ownership by one distinct legal entity of one or more contiguous parcels together.

GENERAL INSTRUCTIONS

APPLICATION: Only one Supplemental Farmland Assessment Gross Sales Form, FA-1 G.S., should be filed annually with the municipal assessor on or before August 1 of the year immediately preceding the tax year for which "farmland assessment" is requested. **You are reporting the current year's gross sales for qualification in the next tax year. Late or incomplete applications will be denied.** At the assessor's request, applicants must provide proofs of eligibility as to ownership, land area, agricultural or horticultural activity and gross sales. Lands in Farmland Preservation Programs must still meet the criteria and filing prerequisites of the Farmland Assessment Act to receive preferential reduced assessment.

Filing Extension-Assessors may grant an extension of time for filing an FA-1 application and FA-1 Gross Sales Form, but no later than September 1 of the year immediately preceding the tax year for which "farmland assessment" is requested, if the assessor is satisfied that failure to file by August 1 was due to (1) the owner's illness and a physician's certificate stating that the owner was physically incapacitated and unable to file by August 1 and the FA-1 & FA-1 G.S. forms are filed with the assessor; or (2) the death of the owner or the owner's immediate family member and a certified copy of the death certificate and the FA-1 & FA-1 G.S. forms are filed with the assessor by the owner or by the executor/executrix of the owner's estate. "Immediate family member" means an owner's spouse, child, parent or sibling residing in the same household. (See N.J.S.A. 54:4-23.6d.)

QUALIFICATIONS: *Farmland assessment* means valuation, assessment and taxation under the Farmland Assessment Act. Land may be eligible for *farmland assessment* when:

- a. The land has been actively devoted to agricultural or horticultural use for at least 2 successive years immediately preceding the tax year for which "farmland assessment" is requested. (See N.J.S.A. 54:4-23.6.)
- b. The land area actively devoted to agricultural or horticultural use is not less than five acres, exclusive of the land upon which the farmhouse is located and such additional land actually used in connection with the farmhouse.
- c. Gross sales, fees or payments (See N.J.S.A. 54:4-23.5.)
 1. **Agricultural/Horticultural (Non Woodland):** Gross sales, fees or payments average at least \$1,000 annually on the first five acres and average at least \$5 for each additional acre of actively devoted land plus 50 cents per acre of appurtenant woodland or non-wooded wetlands. Required Income is calculated on the total number of acres under Farmland Assessment on the property, whether income producing or not. (See N.J.S.A. 54:4-23.5.)
 2. **Woodland Management Plan:** If the land is approved under a Woodland Management Plan the gross sales, fees, or payment average \$500 annually on the first five acres and average at least 50 cents for each additional acre of woodland or non-wooded wetlands.
 3. **NJ Forest Stewardship Plan:** Defined under N.J.A.C. 7:3-5, does not have a minimum gross sales requirement to show active devotion, but the land must be actively managed in compliance with the approved plan.
- d. Application by the owner is filed on or before August 1 of the year immediately preceding the tax year. (See N.J.S.A. 54-23.6.)
- e. Farmland management units less than 7 acres are required to submit a descriptive narrative of agricultural/horticultural uses, a sketch of their location, and number of acres devoted.

SECTION I: IDENTIFICATION

Owners' Name- List every individual, partnership or corporation having an ownership interest in the land.

Block(s) & Lot(s)- List block(s) and lot(s) comprising a farm of contiguous land from your tax bill; official tax map; or page(s) and line(s) from the current year's tax list.

SECTION II: GROSS SALES

List products produced and the respective acreage under the appropriate headings. The acreages listed for the products in this section should match the values entered in Section 2 of the FA-1 application. If necessary, attach a separate sheet with the break down of additional products produced on the farm and the acreage devoted to those products.

Equine: Includes acres dedicated to the breeding, raising, boarding, training, or rehabilitating of horses and ponies, as well as structures like stables used for the equine activities.

Imputed Grazing Value Acres: Includes acres that are permanent pasture and/or cropland pastured, if the imputed grazing value is being claimed as income for livestock grazing on those acres.

Livestock: Includes permanent pasture and cropland pasture used for grazing livestock if not claiming the imputed grazing value for those acres, as well as land under stables, pens, coops, or other structures used to house livestock.

Woodland Products: Includes any tree and forest products produced from woodland under an approved Woodland Management Plan or **NJ Forest Stewardship Plan** if income is generated. Account for all woodland acres subject to a Woodland Management Plan even when only a particular stand within the parcel is being harvested for income that year. This value should equal the number of acres entered on Line 4 of Section 2 of the FA-1 application.

Total Non-Income Acres: Includes lands under streams or ponds when those bodies of water are not being used for aquaculture production, irrigation ditches, land under solar panels or other renewable energy generation systems, appurtenant woodlands, non-wooded wetlands, and permanent pasture and cropland pastured when used as a break or buffer but not when being grazed by livestock or under a federal soil conservation program. It should also include land under farm buildings, such as sheds, barns, silos, etc., which are used for the storage of farm equipment and harvested products as well as woodlands managed under a **NJ Forest Stewardship Plan** from which no tree or forest products are being harvested for income that year.

Total Acres Under Farmland Assessment: Is the total acreage devoted to agricultural or horticultural use (income producing plus (non-income-producing) acres on the property and should correspond to the value on Line (8) in Section 2 of the FA-1 Application.

Final Income: Is the income produced by the property's actively devoted acres, including income attributable to agricultural/horticultural products produced thereon, payments received under Federal soil conservation programs, fees received for breeding, raising or grazing livestock, income imputed to grazing land as determined by the State Farmland Evaluation Committee, and fees received for boarding, rehabilitating or training livestock where the land under the boarding, rehabilitating or training facilities is within the same property as land otherwise qualified for Farmland Assessment. Rents paid to owners by tenant farmers do not constitute gross sales. Generated energy from any source is not an agricultural or horticultural product and any power or heat sold from biomass, solar, or wind energy generation is not income for valuation, assessment and taxation of land pursuant to the "Farmland Assessment Act of 1964."

SECTION III: SIGNATURE AND VERIFICATION OF OWNER(S)

For non-corporate multiple ownership, one owner is presumed to have authority to sign on behalf of the other co-owners. For a corporate owner or co-owners, the full name of the corporation and the signature and title of the corporate officer authorized to sign the application in its behalf must be provided.

OWNERSHIP-Must be single ownership: i.e., a unified title meaning common ownership by one distinct legal entity of one or more contiguous parcels together.

Re: Backer Farm
SSAMP Application

Dear Ms. Voigt:

We write with respect to the status of the above reference application. As you know, the matter has been pending before the Morris CADB since December 2021 with the understanding that an amended application would be submitted to the CADB. We have not yet received the amended application.

The application documents are posted on the CADB's website to allow for public access and review. The last website update is dated July 15, 2022. We do understand that revisions to the application may take some time and please submit the amended application once it is complete.

However, at this time, we will remove the present application materials from the website, as it is our understanding that this version of the application is no longer the accurate version, with the understanding that once an updated application is submitted, current application materials will be posted for public access and review. Keeping the documents posted on the website for this extended period of time, during which time the application has not been on the CADB's monthly meeting agenda, may be confusing to the public who may assume that the application is actively being reviewed by the CADB.

In addition, CADB certified Backer Farm as a "commercial farm" in December of 2021. Given that the certification was made based on 2021 proofs and it is now 2023, we request that updated "commercial farm" certification documents be submitted with the amended application so that the CADB may re-certify if appropriate.

Sincerely,

Katherine Coyle, Director
