SOURCE: U.S. Census Bureau, 2013 - 2017 and 2018 - 2022 American Community Survey
Table: B19301

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error, which may be relatively large for smaller geographies and population sub-groups. In addition to sampling variability, the ACS estimates are subject to nonsampling error.
