

# Morris County Preservation Trust Recommended Open Space Projects for 2010

## Dixons Pond

**Submitted by:** NJ Conservation Foundation

**Type of Acquisition:** Acquisition in Fee Simple

**Grant Amount:** \$1,200,000

**Location:** Boonton Twp., Rockaway Twp.

**Acreage:** 133.10

### Description:

Located south of Decker Road, this acquisition spans properties in both Boonton and Rockaway Townships along the northern shore of Dixons Pond. The property will be used for passive recreation, providing hiking connectivity with the Copper Beech property, which was primarily funded with a county open space grant, and the nearby Wildcat Ridge Management Area. Preservation would help to eventually connect Wildcat Ridge with the Koehler Pond property that lies adjacent to Jersey City Reservoir lands.
