

Midwood Flood Storage Area Addition

Acreage: 0.99

Located off Route 202/Boonton Turnpike and Midwood Road at the oxbow section of the Pompton River, this one-acre property is the site of a former restaurant closed since 2011 due to numerous severe floods. The Borough will demolish the structure and parking lot, and return the site to a natural state to function as a flood mitigation and storage area, and wildlife habitat. Acquisition would complement the Borough's and State's efforts to restore the area for flood control purposes.
