

# Morris County Preservation Trust Recommended Open Space Projects for 2008

## Passaic River Greenway

**Submitted by:** Florham Park Boro.

**Type of Acquisition:** Acquisition in Fee Simple

**Grant Amount:** \$1,000,000

### Description:

These three properties total approximately 7.9 acres and are located to the south of Columbia Turnpike, north of Driftway, west of the Passaic River. The Borough intends to link the properties, creating a greenway and laying the groundwork for trails and river access through Columbia Turnpike Park located further to the east. This will enable more Morris County residents to enjoy this resource for passive recreation and create an access point to the park from within the Borough.
