## Pompton River Walkway - Phase II

**Submitted by:** Pequannock Twp.

**Type of Acquisition:** Acquisition in Fee Simple

**Grant Amount:** \$325,000

**Description:**

These four properties totaling 1.3 acres are located west of the Pompton River, on both sides of Route 23. This project is a continuation of a long term project to recover riparian buffers and flood mitigation along the Pompton River. Phase I of this project (consisting of five properties) received a county grant of \$272,500 last year and several properties under Phase I have already been preserved. Acquisition of these lands will fill in the gaps between existing preserved lands, and further the goal of creating a linear park along the Pompton River.
