NOTES: Alexandria City is an "Independent City" not affiliated with any county.

Starting with the 2022 ACS, the State of Connecticut's nine planning regions replace the eight counties which ceased to function as governmental and administrative entities in 1960.

2022 data is only available for geographic areas with a population of 65,000 or more.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error, which may be relatively large for smaller geographies and population sub-groups. In addition to sampling variability, the ACS estimates are subject to nonsampling error.
