Fox's Brook Culvert

2016	\$23,520	Conditions Assessment
2017	\$22,400	Construction Documents
2018	\$141,450	Stabilization and Restoration

Grant Recipient: Rockaway Borough

Location: Rockaway Boro.

The c.1826 stone arch culvert was constructed as part of the Morris Canal system, carrying canal boats over Fox's Brook. A roadway is now over the structure. The arch is part of a public park. The culvert is a contributing structure in the Morris Canal National Register Historic District.

The 2016 grant has provided for a Conditions Assessment and Recommendations Plan.

The 2017 and 2018 grants assisted with stabilization and restoration, replacement of fallen stones, grading, drainage and landscape improvements.
