Table: DP03

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error, which may be relatively large for smaller geographies and population sub-groups. In addition to sampling variability, the ACS estimates are subject to nonsampling error.

For ACS methodology, see:

<http://www.census.gov/programs-surveys/acs/methodology.html>

For Accuracy of Data, see:
