Lafayette School

2019 \$51,260 Construction Documents

2024 \$241,608 Exterior Restoration

Grant Recipient: Roxbury Township

Location: Roxbury Twp.

The 1921 Lafayette School is one of a few surviving examples of a two-room schoolhouse type. It is the only known schoolhouse of its type, cast-in-place concrete structure (10-12") with a rubble stone veneer (+8"), in New Jersey. The building has a Certificate of Eligibility for listing on the Historic Registers.

The 2019 grant completed Construction Documents related to the interior and exterior restoration and rehabilitation.

The 2024 grant will assist with exterior restoration including replacement of aluminum cornice with new wood fascia and cornice, and structural repairs.
